#### TAZEWELL DOCTORS TO ATTEND MEDICAL MEETING.

The annual meeting of the Medical Society of Virginia, at Richmond, October 25-29, will be the largest and most interesting in its history. The responses to invitations by the members from the State at large and particularly from the ladies, wives and daughters, insures this. The social side of the meeting has received unusual attention on the program, and while the physicians are engaged in the meeting and at clinics, the ladies will be tendered a number of entertainments in their own right, including luncheons, teas, dances, theater parties and a reception at the Executive Mansion by the Governor.

Municipal recognition has been given to the medical society in the program of entertaining medical men, in a handsome degree, and business organizations in Richmond are lending cordial aid.

The meeting will be of unusual interest from both the professional and social standpoint and will fix the high-water mark for the Medical Society of Virginia.

Doctors J. R. Hicks, of Gratton; P. D. Johnston, of Tazewell; O. K. Phlegar, of Graham; W. R. Williams, of Richlands, Tazewell county doctors, have signified their intention to the committee of invitation of being present and others from the vicinity of Tazewell, are expected.

#### A NOTE TO THE PRESIDENT.

The following night letter was sent last week on announcement of the President's engagement:

To the President,

Executive Mansion:

Your first administration will be remarkable in history for scope and versatility of salutory achievement. Assured of its repetition, friends in Southwest Virginia rejoice and they will have a joyous foreboding that never again will see a day and a day of the political aspect of federal patronage.

In the earnest hope that nothing you have done since leaving Virginia can be used by alien or domestic enemies to embarrass pending negotiations, the great white district of your native state takes its hat off to you.

Jingos here would assure your reelection before that you have adopted a more delightful method to secure that consummation.

The world was sad; the garden was a ruin, and man, the hermit sighed, till woman smiled.

# Tone

The Victrola tone is a wonderful thing. It is the tone of pure reality—throbbing with life and power—and it is exclusive with the Victrola. Besides this true-to-life tone, the Victrola with its system of changeable needles and modifying doors enables you to instantly meet every acoustic condition without in the least degree changing the artist's interpretation. These distinguishing points of superiority are only two important features that demonstrate the perfection of every detail in the Victrola, and make these patented Victrola features of interest to every one.

### Come and see these patented Victrola features

**Tapering tone arm**—with its exact taper and perfectly smooth bore, which is scientifically calculated and constructed to conform to the expanding sound waves created by the sound-box.

**"Goose-neck" sound-box tube**—the flexible metal connection between the sound-box and tapering tone arm, which enables the Victor Needle to follow the record grooves with unerring accuracy.

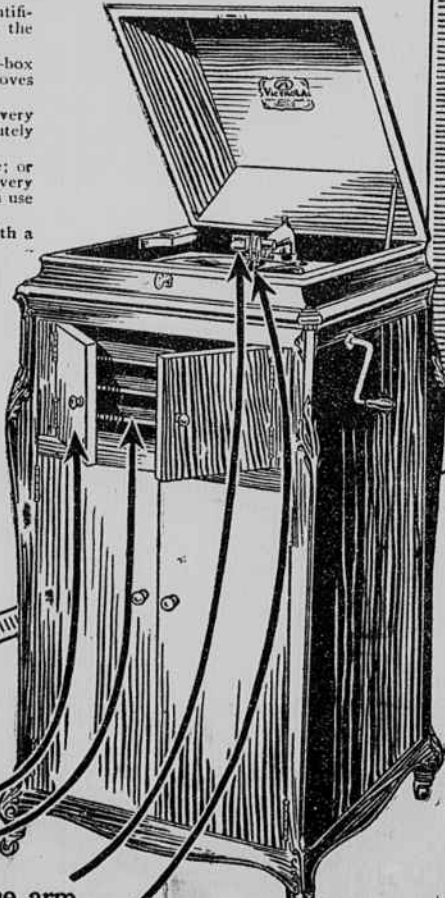

**Concealed sounding-boards and amplifying compartment of wood**—provide the very limit of area of vibrating surface and sound amplifying compartment, so absolutely essential to an exact and pure tone reproduction.

**Modifying doors**—may be opened wide thereby giving the tone in its fullest volume; or doors may be set at any degree graduating the volume of tone to exactly suit every requirement. Closed tight the volume is reduced to the minimum and when not in use the interior is fully protected.

**Victor system of changeable needles**—a perfect reproduction is possible only with a perfect point—therefore a new needle for each record is the only positive assurance of a perfect point. You also have your choice of full tone, half tone or further modification with the fibre needle.

When you hear the wonderful tone of the Victrola and see how the Victrola system of changeable needles enables you to enjoy every record to the fullest extent, you will realize why the Victrola is universally acknowledged the greatest of all musical instruments. There are Victrolas in great variety from \$15 to \$300, and terms can be arranged to suit your convenience.
